

Managing Work-Related Road Safety

I'M A FLEET DRIVER

What's in it for me?

... Driving at work is just a part of my job, and I didn't realise how important it is to continually develop my driving skills, as I do with my other work skills.

Engage

Encourage

Support

Improve

FSGB Driver Management is a fully integrated, continuous learning driver support and development programme.

Develop and improve your driving ability

► **FSGB Driver Management is one of the best things the company has introduced.** The programme provides me with support and development opportunities and I really feel involved.

Continuous Learning

► **I passed my driving test a long time ago and I have never bothered with any further training –** FSGB Driver Management has opened my eyes and I now feel not only a better driver but a better person as a result of my involvement.

Driver behaviour

► **You don't always realise it when you are driving, but being tired, distracted, dehydrated or stressed, are serious factors in losing concentration.** Losing concentration whilst driving means I could make mistakes, and if I make an error it could lead to an accident.

FSGB Driver Management supports me and offers practical tools and guidance in how I can perform at my optimum; keeping me safer and feeling better behind the wheel.

Vehicle maintenance

► **As well as looking after myself physically and mentally, a well-maintained vehicle is paramount.** Being prepared for a journey will reduce stress and save me time; checking a vehicle regularly will also pick up any maintenance issues, thereby preventing downtime and reducing the chance of a vehicle breakdown or having an accident.

What do I get?

► **I feel valued – from the moment I completed my application I knew that FSGB Driver Management would be different, and it is.** The in-depth support, help and advice embedded within the programme gives me confidence and reassures me my wellbeing and safety is the number one company priority.

An investment in my future

► **There is no doubt in my mind that FSGB Driver Management benefits everyone.** By continually learning and improving, my productivity increases, and overall operating efficiencies improve. Being happy at work, makes me happy at home, so it's a win-win situation.

► **It is important to recognise we should never stop learning. Driving is a hazard, learning helps me better prepare for it.**

The FSGB Driver Management programme

How does it work?

An analysis of continuously measured driver and vehicle performance data, determines relevant driver interventions, prompts and other communications.

The fully integrated synchronised technology supporting the FSGB Driver Management programme, encourages the development of a safety culture that improves wellbeing and operational efficiency.

Further support is provided by a highly intuitive **Achieve Driver App**.

What's in it for me?

One in a series of infosheets about the benefits of managing work-related road safety:

- ▶ H&S Director
- ▶ HR Director
- ▶ Finance Director
- ▶ Fleet Manager
- ▶ Driver
- ▶ Procurement Director
